

Royal Brompton Hospital,  
Occupational and Environmental Medicine, London SW3 6LR

Faculty: Professor Paul Cullinan, Professor Sir Anthony Newman Taylor, Dr Jo Szram

## LUNG FUNCTION TESTS, ASTHMA AND WORK

Workshop held twice a year on the role of lung function testing in the workplace.  
The day covers:

- Interpretation of spirometry; what is abnormal?
- Longitudinal changes and individual variation in lung function
- The role of spirometry in health surveillance
- The application of spirometry and other terms of lung function in pre-employment screening and fitness to work
- Risk assessment of people with asthma

Each topic will contain practical examples and ample opportunity for discussion. Suitable for all Occupational Health professionals with a particular interest in spirometry and lung function testing, and their implications in the workplace. **A working knowledge of practical Spirometry is assumed.**

Please note that the number of places available is limited.

A few comments from previous delegates:

- Especially enjoyed group work and discussion on occupational exposures. Very well conducted chairmanship.
- I found the workshop today most useful and informative. Thank you.
- Thank you to all those concerned for an excellent and worthwhile study day. Highly recommended.
- Very informative. Helpful in being able to adopt a confident and robust approach to supporting "asthmatics" in employment on a rational basis.

<b>Dates:</b>	<b>Spring and Autumn each year</b>
<b>Times:</b>	<b>10am – 4.30pm</b>
<b>Cost:</b>	£120
