

‘Lung Function Testing in the Workplace’
Intermediate Level
virtual course

£100 registration fee

Online, 1 day workshop (via Zoom)

5 hours CPD

Date: Thursday 21 October 2021

This course is currently full; we are running a waiting list

Brush up your spirometry interpretation skills with a virtual version of our very popular course.

Topics to be covered:

- **concepts in lung function measurement**
- **guide to interpretation**
- **getting it wrong**
- **case studies; practice**

Facilitated breakout group work will be included – with ample time for Q&A

Please note:

- ❖ Booking is online only – please see the [course webpage](#) for further information
- ❖ Accredited by the Faculty of Occupational Medicine – 5 CPD points
- ❖ Fillable attendance certificates provided
- ❖ Please contact us on lungsatwork@imperial.ac.uk for further information if required
